

WHISPERFLO®

HIGH PERFORMANCE PUMP

QUIET, EFFICIENT & DURABLE, THE INDUSTRY STANDARD BY EVERY MEASURE.

We call it the WhisperFlo® pump for good reason. This innovative hydraulic design moves water more efficiently and more quietly than competitive pumps. Under typical operating conditions, WhisperFlo® offers high water flow and high performance with low electrical consumption.

Engineered to provide optimum performance in any size pool or pool and spa combination, WhisperFlo® is built to last a lifetime, and as a result, has become an industry top seller for many years.

WhisperFlo® is designed to be a tireless workhorse. Engineered thermoplastic housing withstands extreme heat and resists corrosion. The commercial grade motor frame has a rustproof, stainless steel motor shaft and sealed bearings that never need lubrication.

WhisperFlo® costs less to operate, as it uses less horsepower to produce the required water flow. The specially-engineered design assures whisper-quiet operation as documented in rigorous tests. The oversized strainer basket extends time between cleanings.

A see-through lid makes inspection fast and easy and the engineered polymer remains clear and strong for years. User-friendly Cam and Ramp™ lid is easy to remove and quickly locks in place with a quarter-turn.

WhisperFlo® pumps deliver maximum circulation efficiency at low operating cost and long, trouble-free life with minimal maintenance.

Our legendary hydraulic design has been refined over 40 years for superior performance. No wonder more than 2 million Pentair pumps have been selected by pool professionals.
